ACKNOWLEDGEMENT

I would in a special way congratulate the University administration for having given me this assignment that exposed me to the general knowledge in agriculture yielding me very vital knowledge in several subjects

I would also like to appreciate the entire staff of Arapai campus for the assistance rendered to me in all ways during the training for funding the training which we hope will go a long way to enable me to access knowledge and skills.

I would like to thank also our field supervisor of crop **MR.BENARD BUKENYA** and not forgetting my fellow colleagues who were working with me in the **Department of Production and Marketing at Bweyale Town Council**

Lastly I would like to thank my parents for their hospitality that they gave to me during the period of my industrial training that may the lord bless you in your daily activities.

ABSTRACT

The field attachment IT was carried out from Bweyale Town Council, office of production and marketing located in Bweyale Town in Kiryandongo District along Gulu Kampala high road Rift valley road Bweyale cell central ward, from 28st of February to 06th of May/2022.

Chapter one; This describe majorly background/introduction of B.T.C they Bweyale Town Council it started as a Town in July 2009 with creation of Kiryandongo district were it was elevated to Town council from 1st July 2010 accountingly and its ultimate vision of becoming urban Town in 2020 and 2025 acounding to its goal to provide excellent service to all B.T.C.

Chapter two; In this provide s the description of some activities carried out in the field, postharvest techniques of handling of grains and I learnt moisture content test, determining quality parameters on grains modern and traditional methods of drying grains. Seed fair and equipments distributions were seeds like nakati, sukuma, beans and tools like hoes, panga, and watering can were given. Pest and disease surveillane under this I learnt pest like fruit fly, control like use of pheromone traps and organic control methods on mango tree fruits. Monitoring and evaluation of agro-inputs shops in B.T.C I also learnt the quality operations standards of agro-inputs shops in B.T.C, precautions and their safety uses like keep them in dry place. Demonstration on soybean planting were field preparations were done, crops variety identified its spacing other different agronomic practices under soybean management.

Chapter three; This IT gave me an impact were I learnt skills like crop spacing on soybean, different agricultural tool and seeds moisture content test on grains, proper handling and management of agro-chemicals etc and this influence my career as an agriculturalist.

Chapter four; This describe conclusion and recommendation of my IT report and my conclusion was I would remained unskilled if the university would not give as this wonderful programs to my career.

My recommendation goes as follows in few areas I request the university to provide to all internship student token of appreciation and have strong co-ordinations between student and the university supervisor to ease the work that some few students not being supervis

CHAPTER ONE:

1.0 Introduction

Industrial training refers to the work experience that is relevant to the academic and professional development of a student before graduation. It is usually compulsory module for all students at the end of first year but due to covid19 it was done towards the end of the course.

It is a program which aims to provide supervised practical training with aspect in specified time frame. This training can be carried out either in government organization or in private section

1.2 Background of Bweyale Town Council

Bweyale Town Council first started as a Town Board in July 2009 but with the creation of Kiryandongo District, it was elevated to Town council status effective from 1st July 2010 and accordingly, acquired a mandate for developing its plan as per the planning guide lines.

The 2020/2021-2024/2025 Five Years Integrated Development Plan is the third planning document which has been made since Bweyale Town Council was established. It is a working document that is geared toward the allocation and utilization of the limited resources among the unlimited community needs with an ultimate vision of Having Bweyale Town Council Transformed into a Modern Urban Centre by 2025. It entails the background and the development process for this plan.

Administrative infrastructure

Bweyale Town Council has got 3 Wards and 7 cells as indicated here below

Wards	Cells
Northern Ward	Adagwoo
	Kichwabugingo
Central Ward	Bweyale
	Nyamusasa
