1.0 CHAPTER ONE

1.1 INTRODUCTION

Outreach is one of the activity Carried out in Busitema University by the second year students of diploma in animal production and management, crop production and management and certificate in general agriculture.

The community outreach is attached to the course module rural sociology and community outreach

The students used to go for community outreach on Monday, but of recent the school management changed it to be every Friday of the week in the morning

1.2 BACKGROUND TO COMMUNITY OUTREACH

The students were grouped to different places of attachment i.e. Arabaka, Arapai A, Aloet etc.

The students were also divided to different field supervisors

Also students were divided to different sub groups from particular places of attachment.

The division was based on i.e. gender, tribe for translation and class for wider sharing of ideas

The students were also attached to different homes i.e. four where all the activities have been carried out from there depending on the work plan

1.3 THE OBJECTIVES OF COMMUNITY OUTREACH

To promote diversity and student development while enhancing skill and knowledge to serve in a divergent community

To provide a competent based training to the students

To provide students with the confidentiality and leadership skills to train farmer's on agricultural activities

To provide students with the practical skills.
