DEDICATION

With great pleasure, I would like to dedicate this booklet to my dear parents Mr. OCHEN MORRISH and Ms. JOAN OCHEN for their financial support and guidance in my entire studies throughout the training.

This also goes to all the staffs of Busitema University, Arapai Campus and all the staffs of production and marketing department, Kwanja District Local Government for their guidance, counseling and any other support given to me during the period of industrial training.

Lastly, I would also like to dedicate this report to my Aunts, uncles, sisters, brothers, cousins, relatives and my courageous friends who have given me support in the preparation of this report. May you all use it for future reference.

ACKNOWLEDGEMENT

A script of this nature can only be completed with external support and guidance. It is therefore under this note that I wish to extend my gratitude and appreciation to the following.

I greatly acknowledge my thanks to the Almighty God for He kept me alive, healthy and safe through all dangers .

Great thanks goes to the Administration of Busitema university arapai campus, department of agribusiness and extension for giving me a chance to do this training, and all the staffs of production and marketing department, kwania district local government for the wonderful guidance, counseling and support rendered during the training despite all the responsibilities you had.

Lastly, am grateful to my dear parents, relatives and friends who supported me both financially and materially for the great success of my training. May the, Almighty God bless you. Amen

ABSTRACT

This booklet summarises all the industrial training activities which I carried out at Aduku town council under production and marketing department, crop sector, kwania district. I located in North part of Uganda.

The industrial training started from 28/02/2022 to 06/05/2022 with the following activities in the work plan carried out include potting , pruning of coffee plants, pest and disease identification in crops, training on parish development model, distribution of planting materials like seeds, cassava cuttings etc, planting demonstration sites in host farmers field, field visit to farmers operating different enterprises, distribution of seedlings etc, under the supervision of District agricultural officer. With all the activities, much skills, knowledge and qualifications gained which includes gaining practical work in the field which are correlated to theoretical lecture room activities, gaining leadership skills and confidence in communicating in public, training of farmers and interacting with other people etc, however some challenges like long distances, poor roads, and lack of enough transport means to reach farmers, harsh climatic condition like drought, poor turn up of farmers for the training etc, in conclusion, the training went on successfully though some of the recommendation like facilitating enough transport means to extension workers, providing some of the inputs like pesticides to farmers regularly, sensitizing farmers on different modern methods of farming to attain better yields.

CHAPTER ONE: INTRODUCTION

1.0: Background, size and population of Aduku Town Council

In the year, 2007, Aduku township was accorded the status of a town board, it was gazetted to occupy parts of the of parishes of Adyeda and Ongoceng so as to help guide orderly development.
