ABSTRACT:

The industrial training and practices was conducted at Teso College Aloet Farm in Soroti district for the period of six weeks which was aimed at equipping the students with more practical and professional skill. At the station I was attached to the both animal and crop section. In crop section has other subsection i.e. Citrus, Forest and vegetables like cabbage, skuma wike, green paper, tomatoes and ~~oni~~ onions but in cattle section we had dairy cattle.

I carried out many activities in cattle section including spraying, census castration, treatment, health inspection and meat inspection.

This attachment equipped with number of skills including diagnosing many livestock diseases.

In crop section section I carried so many activities and I have gained more knowledge on how to plant eucalyptus seedlings in straight line using a planting cross, of sex chicks, weighing of chicks feeds, the amount of feeds chicks are supposed to eat in a day.

I recommend the government to invest some capital for renovation of some structures.

(B)

CHAPTER ONE:

1.0. Introduction.

This is one afield attachment/ industrial report, being partial fulfillment for the award of diploma in animal production and management pursued at Busitema University Arapai Campus under faculty of Agriculture and animal science. It's one of the requirement that each student under takes before attaining any qualification in university. The field practice was conducted Teso College Aloet in Soroti district for the period six weeks beginning 10jully-15August 2017.

CHAPTER ONE

INTRODUCTION

1.1 BRIEF INTRODUCTION OF THE STUDY

This program of industrial training is a university preparation for students pursuing excellence in the faculty of agriculture and animal sciences and it enable them to acquire skills and knowledge perfectly in the field practical's, students do relate what they learnt in class with what is in the field.

1.2 FARM BACKGROUND

Teso college Aloet started in 1953 through initiative of the local people from Aloet area with the support of leo okol ,the chairperson teso district at a time .The school did not have a name at first and consisted of only two junior classes .By 1954, under leadership of teso district local administration, teso college had grown one of the largest and best equipped school in teso and Uganda.

On 9 July 1954, The foundation stone for the new school was laid by then by colonial governor of Uganda ,sir Andrew Cohen making official founding of the school and giving it the name test college Aloet

The preparation for enrolment and the formal start of teaching at Teso College were began by A.S.O Baxendale who was later become principle education officer, eastern province. In 1955, John Sassoon first acting headmaster of the school first completes this preparation classes officially started on March 1955, with James Opolot as assistant master. On 2nd
