## DEDICATION

I dedicate this report to my beloved parents ACEN PASKA and ACAYE BONNET for their support as the cornerstone of my wellbeing as their child.

Thanks also goes to the management of ACOT for the hope and trust they put on me, and admitting in their organization for the further expansion of my knowledge and skills in comparison to university program.

Lastly, i also dedicate it to all the staff of Busitema University Arapai Campus, especially the department of Agri-business and extension for their effort toward my studies. You are really appreciated my the almighty bless you abundantly.

## **ACKNOWLEDGEMENT**

I would like to give thanks to the almighty God for the precious gift he gave to man and guided me in any moment of life. This report was successfully possible with the support and guidance of some individuals. I would like to thank the director of ACOT Mr. OKELLO SIMON PETER and my field supervisor Mr. ODONGKARA DOUCLAS for their constant guidance and encouragement and all the staff of the university from the department of Agri-business and extension who moulded me from first year upto this time thankyou so much.

Table four: Organisation structure.....18

## ABSTRACT

This report is made up of four parts; The first part contain the preliminary pages of the report for example, title page, declaration, dedication, acknowledgement, table of content, list of abbreviation, list of table and figures and abstract itself. Through this first part is where the reader is able to know the organization of the attachment and also to identify the student.

The second part of the report consist of chapters like chapter one, which introduces the reader to the subject of the report so that he / she is able to know the background of the organization attached. Chapter two presents the description of the activities that were done during the industrial training (IT). Chapter three describes the impact of the training, whether the skill is gained, responsibilities undertaken, and influence of the activities. Chapter four provides the conclusion and recommendation given by the student.

The report also contained some rare part toward the end, like appendices which may include maps, charts, graphs, pictures, work plan, and schedules of the activities if is there and also the reference where the student can list the names of books and journals and also the web page which was used during the training to refer to the report.

## **CHAPTER ONE**

### **1.0 Introduction;**

Industrial training refers to work experience done during the program of study that is relevant to professional development prior to graduation

### **1.1 Background;**

ACOT office is located 1km from Gulu-Pakwach road in Koch Amar village, Nwoya District. African Child Outreach Trust (ACOT) was started in 2006. The organization was formed to help the vulnerable children and serves upto 2011 where it was change. The organization after being change in 2011, it serves for two years which run upto 2012. Btm 2011-2012, the organization was running as the micro credit and their role was to provide support and assistant to mothers. From 2012-2018 the organization was changed to Agricultural institution which was aimed at training groups of youth in practical aspect of Agriculture.

The organization works in partnership with several non governmental organisations (NGO'S) eg Save the Children, World Vision (WV), ZOA and others. The role of NGO'S was to register vulnerable group of youth and brings them for practical training in Agriculture which takes four month then new groups are registered.

### **1.2 Objectives of the study**

The main objectives of industrial training is to expose the student to actual working environment and enhance their knowledge and skill from what they have learnt from the college.

- ❖ Another purpose of this program is to instill the good qualities of integrity, responsibility and confidence.
- ❖ Student will also develop skill in work ethic, communication, management and others. This practical training program allow students to relate theoretical knowledge with its application in the manufacturing industry.
- ❖ To provide students the opportunity to test their interest in a particular career before permanent commitments are made.
- ❖ To develop skill in the application of theory to practical work.
- ❖ To develop skills and techniques directly applicable to their career.
- ❖ To increase student's sense of responsibilities and good work habit.
- ❖ To equip students with knowledge of writing report in technical work.
- ❖ To increase student's level of academic performance.
- ❖ To increase student's earning potential toward graduation.
- ❖ To build strength, teamwork spirit and self confidence in student's life.
- ❖ To enhance the ability to improve student's creativity, skills and sharing ideas.
- ❖ To build a good communication skills with group of workers and learn good behavior of corporate life industrial sector
