**INDUSTRIAL TRAINING REPORT CARRIED OUT AT EZEKIEL EITUNO FARM
SUPPLIER DOKOLO-GWERI GWERI SUB COUNTY SOROTI DISTRICT**

FROM

15th MAY 2016 TO 22nd AUG 2016

PRESENTED BY:

OPOLOT CHARLES

REG/NO: BU/UP/2015/1305

EMAIL: karoliCharles2015@gmail.com

INDUSTRIAL TRAINING COD: DCP 1301

**PRESENTED TO BUSITEMA UNIVERSITY FACULTY OF AGRICULTURE AND
ANIMAL SCIENCES ARAPAI CAMPUS IN PARTIAL FULFILMENT OF THE
REQUIREMENT FOR THE AWARD OF DIPLOMA IN CROP PRODUCTION AND
MANAGEMENT**

AUGUST 2016

DECLARATION

I OPOLOT CHARLES do declare that to the best of my knowledge and understanding, the industrial training report is original and has never been presented to any university for approval.

The compilation of this report is as a result of activities carried out during the industrial training. All the activities that i did in the field are a reflection of the theoretical knowledge obtained from the university.

OPOLOT CHARLES

DEDICATION

I dedicate this report to the family of Ezekiel Eituno farm supplier Dokolo-Gweri, our field supervisor and world vision Gweri sub- County.

Special thanks goes to the faculty Dean Busitema University Arapai Campus and all the staff Busitema University Arapai campus.

I would also want to thank all my friends Emiru Jorem, Audo Ketty, Aguti Norah and Ademun Susan may god bless you all abundantly.

ACKNOWLEDEMENTS

First and foremost, I thank the Almighty God for enabling me complete this Industrial training in time and also within limited resources that were available to me.

I am greatly indebted to extend my sincere gratitude and appreciation to my supervisor EUKU EMMANUEL for his tireless, endurance, treatment for me, professional and fatherly guidance that he rendered towards the entire process of writing and presenting this Industrial training report. Allow me say thank you very much my supervisor.

I wish to extend my thanks to all lecturers, Faculty of Agriculture and Animal sciences and the entire Busitema University Management and academic support to me in carrying out this Industrial training.

I greatly appreciate my father Opwata Wilbert and my Mother Aduo Christine for their support financially, materially and spiritually they offered to me when I needed it. Conspicuously sisters Akello Martha, Acen Esther, Ikiror Mary, Alayo Lucy, Susan, Norah, Brothers Egweu Joseph, Ekeu Simon, Opio Paul, Eyapu Samson, Odongo Abraham, Erabu Isaac. And my aunt Ikono Rose, Adongo paura, you have been very inspirational to me and great thanks goes to you all, may God bless you abundantly.

A friend in need is a friend indeed'. My great friends including: Emiru Jorem, Eyoku Andrew, Okiror Yokoyakim, and the entire fraternity of Busitema University Arapai Campus for the support given during the course of my studies, may God reward all of you abundantly.

Lastly I thank God for enabling my studies at Busitema University Arapai campus for Diploma in crop production and management.

ABSTRACT

The main purpose of the training was to gain more knowledge and skills based on the practical field experience on the farm. The training was based on both crop and animal production and management. The other thing was to attain more experience on how to handle cases and to interact with the community as we are focusing towards achieving our carriers..

The following are the major activities i carried out in the course of the training: Orientation, Citrus production, goat and sheep rearing, mango production, poultry production, tomato growing, fish farming, maize production, onion production, groundnut production and green house construction. The training was based on the technical aspect with the help of the field supervisor.

The training was also to enable us to transfer the information gained from the University theoretically to the community practically as we gained more experienced on our field of specialisation

During the training I encountered a few challenges like harsh weather conditions, shortage of resources and others.

Despite of the challenges I encountered during the training, I was able to complete the training successfully and therefore I would like to recommend that the farm should rectify the problems mentioned in chapter three above and others that my colleques will raise.

CHAPTER ONE

1.0 INTRODUCTION

1.1 Meaning of industrial training.

Internship is a course unit run by universities for most of the programmes. This intends to equip students to field skills and enable them appreciate the link between the theory learnt in the class and their respective professional fields at Busitema University. The activity is meant to run for ten weeks at the faculty of agriculture and animal sciences, the industrial training is done during the internship period. To comply with the university requirement from may 16th to July 22nd 2016; the author trained at Eituno Ezekiel farm supplier Dokolo Gweri. Experiences gained and observations made are reflected in this report

1.2 Objectives of the training

To gain experience on related activities.

To relate the theoretical knowledge got from the University to the practice in the field.

To get acquainted with the farm system of operation.

1.3 The historical back ground of the farm

The farm was established in 2001 after attaining sensitization from the government programme like National Agricultural Advisory Services (NAADS). Initially the farm was engaged in subsistence production that used to sustain the family such as traditional crops like groundnuts, cassava, potatoes, millet, sorghum, etc. The only commercial purpose was rice and tomatoes.

However after attaining knowledge on modern farming, the farmer selected citrus production enterprise since it was so suitable for him. However after conducting **Strength Weaknesses Opportunities Threats (SWOT) analysis** the farmer adopted other enterprises such as poultry production, goat and sheep farming and fish farming, this however attracted a number of visitors from within and outside Uganda including the president of the republic of Uganda Yoweri Kaguta Museveni hence the existence of the farm.
