DEDICATION

I dedicate this piece of work to my dear wonderful parents. Mr. Gelasious Otija and Mrs. Faith Norah Agiran, my lovely uncle Mr. George William Omuge, my father –in – law the late Rev. Canon Stephan Amuret who left this earth on the last week of industrial training you really fought a good fight thank you and the great pleasure goes to my lovely husband who always moved left, right, up and down to see that he settles me at school. May the Almighty God continue protecting, guiding and providing for us.

I would also like to dedicate this report to all my lecturers of Busitema university arapai campus and all my friends that God bless you all AMEN.

D

ACKNOWLEDGEMENT

In a special way, I would like to extend my sincere thanks to the faculty dean and to madam Asero Diana for giving me an introductory letter to go out and exercise the knowledge I acquired in class in to the field.

I would also like to extend my thanks to my field supervisor who welcomed and took me through all the necessary knowledge required during the training.

I would like also to extend my sincere thanks to my husband Mr. Ekinu Mark and his dad and mum, sisters and brothers who have always supported my being at school in different ways and not leaving out my mum and dad for their support.

Above all I thank God Almighty for always being there for me at all times, may his name be exulted.

ABSTRACT

The report contains all the activities that were carried out in Dependable God Biodynamic Farmers association during industrial training in serere district, Atira sub-county Alengo Parish in Obia Cell from 20/05/2019 to 26/07/2019.

The report covers the introduction which contains the define of industrial training, back ground of the attachment, objectives, mission and vision statements. The report contains the description of the attachment that contains all the details of the activities carried out in different sections in DEBFA farm e.g. Crop production and management where there was horticulture, maize production, groundnut and citrus production and management etc. and Animal sections such as poultry, cattle, Goats, piggery and rabbits etc. the others include Apiculture.

All these activities were done by all the internees being guided by the field supervisor from 8:00am to 10:00 am. Thev report also contains the skills and knowledge gained from the attachment, responsibilities undertaken and the relation of activities carried out with classroom work. The also contains conclusion and recommendations.

CHAPTER ONE

1.0 INTRODUCTION

INDUSTRIAL TRAINING

Industrial training is a course unit by universities and institution for most of the programs. This is a great to learn about an occupation and get work experience the same time .it gives career change a chance to learn about new occupation and also benefit those returning to work after an extended absence.

Most often working under supervision of a senior supervisor although certain activities may not necessarily require direct supervision ,provides an internees an environment in which he/she starts appreciating working to meet target and deadlines.

1.2OBJECTIVES OF INDUSTRIAL TRAINING

The following are the main objectives of industrial training;

To prepare students for future experience in the field

To improve on data collection procedures

To enable student learn the challenges and demand of work place

To test students relation and interactive power with the farmers and the community around his/her as well as time mgt for commitment for the assign duties by him or her in order to further perfection e.g. production of high yields in crops

To acquire new skills and knowledge

1.3 BACKGROUND OF DEPFA

DEPFA is a community based organization (C.B.O) that was established in 2011 and was legally registered in 2012 as C.B.O. It is located in eastern region, Serere district, approximately 23km along Soroti-Sere road, Atira sub-county, Alengo Parish, Obia cell. This association was found on Christian virtuos.
