DEDICATION

This work is dedicated to my mother Ms.Namusobya Agnes and my in law Mr.OundoWarren who have supported me not only academically but also in all aspects of life and are still supporting me up now when am at the university .I also dedicate it to Dr.Aaron Kasuku who inspires me in veterinary activities not forgetting Ms.Auma Gloria as a sign of encouragement for academic enhancement.

ACKNOWLEDGEMENT

First and foremost, I would like to thank the Almighty GOD who has protected me through the training period. Then, I extend my gratitude to the farm Director Pr. Musasizi Duson and management of Ms. Kisakye Garret and Mr. Matovu Richard for accepting me to conduct the industrial training on the farm.

Special thanks go to;

- The manager of Busoga farmers resource centre Ms. Kisakye Gorret
- The assistant manager ,Mr. Matovu Richard
- And all the field assistants Mr..Nata Paul and the rest

Your infinite assistance, guidance, generosity and tolerance during the training will not be forgotten.

I also wish to extend my sincere gratitude and appreciation to;

- All the staff of Busoga Farmers Resource Centre for providing comfortable and convenient accommodation during the training ,and to the various people that have supported me financially ,academically ,morally ,and spiritually during my stay at the Farm

My university mates especially Muwanguzi David and others with whom we cooperated during our stay at farm.

May God bless and reward you all abundantly for the kindness and sympathy towards me during the training.

ABSTRACT

This report contains and describes the activities implemented, skills and qualifications gained, challenges faced during industrial training, conclusion of the report and re commendations derived from challenges faced at Busoga Farmers Resource Center Busembatia.

The objective of this industrial training is to make students benefit from skills and knowledge gained from the fields, apply the knowledge got from classroom in the field and build confidence in the students. During internship I was attached to the Animal and crop departments. This was followed by orientation where I was introduced to the workers and farm staff and later implemented activities as follows; sugarcane juice extraction and value addition to the juice, banana plantation activities, grafting 500 mango seedlings, budding of 700 seedlings of oranges, mulching banana gardens and tomatoes, slurry application from bio gas pits, preparation of 4 kitchen gardens and 1 sack mond, preparation of composite manure, cleaning, baiting, and siting 6 Kenya Top Bars, management of 6 cages of vermin culture ,activities in black soldier fly management ,feed mixing and poultry management. These activities have made gain a lot of skills and knowledge as mentioned above and communication skills with confidence in training farmers on animal and crop management.

During internship, I also faced some challenges like lack of veterinary drugs at the farm, limited transport means, limited technical staff especially to animal department, less attention to the knowledge and advice given to the farm Director. In conclusion all activities were implemented and industrial training were carried out successfully. I was able to benefit from it .I was in position of getting practical skills and knowledge in my career and relating with people in field. The technical advice that I provided addressed the farm director, manager and staff at farm.

Much as well were successfully done, there were also some little challenges which hindered the smooth running of the activities making me recommend that they should install veterinary drugs at the farm, buy motorcycle for the manager at the farm for easy supervision, employing top technical staff , should work with extension workers available to educate him more.

CHAPTER ONE

1.0 INTRODUCTION

Busoga Farmers Resource centre is a private farm owned by Pr. Musasizi Dawson and Musasizi Dinah in Namutumba District Busembatia Town Council. This mainly operate in fish, poultry, maggot production from Black Soldier Flies, vermiculture, banana plantations, kitchen gardens ,vanilla, cocoa and tomatoes
