**FACULTY OF ENGINEERING**

**DEPARTMENT OF TEXTILE AND GINNING ENGINEERING**

**GINNING AND INDUSTRIAL ENGINEERING PROGRAMME**

**FINAL YEAR PROJECT REPORT**

**PROJECT TITLE:**

**DESIGN OF A MOTORIZED GROUNDNUT SHELLING MACHINE**

**BY**

**NDYAMUSIIMA SERESI,**

**BU/UG/2018/2423**

**EMAIL: [ndyamusiimaseresi@gmail.com](mailto:ndyamusiimaseresi@gmail.com)**

**0773073810/0753940490**

**SUPERVISOR: MR. TUMUSIIME GODIAS**

**A design project research report of a motorized groundnut shelling machine presented in partial fulfillment of the requirements for the award of a diploma in ginning and industrial Engineering, Busitema University**

## **ABSTRACT**

This research describes the design of a motorized groundnut shelling machine.

Chapter one explains the introduction and background of the research. It also includes study objectives, problem statement, study scope and project justification.

Chapter two explains the literature of project.

Chapter three explains the methods used to achieve the specific objectives of the study

Chapter four includes the conclusion and also the recommendation for improvement.

## **DECLARATION**

I **NDYAMUSIIMA SERESI**, hereby declare that this project is completely based on my research work except for citations and quotations which have been specifically acknowledged. It has not been submitted to any other examining body or academic institution for any academic award.

Date: .....

## **ACKNOWLEDGEMENT**

My sincere thanks go to the Almighty God for giving me strength, health, wisdom, grace, and protection throughout the preparation of this work.

I also sincerely thank my parents, siblings and friends, for being there for me in all ways whenever I needed their attention.

Thanks go dear supervisor; **Mr. Tumusiime Godias** who has guided me with knowledge throughout the research and making sure that it is a success. More thanks go to all lecturers especially those of Textile and Ginning Engineering department who readily gave me time during my consultations.

Finally, I thank all my friends and the Diploma in Ginning and Industrial Engineering class of 2018/2019 academic year intake for standing together in academics and social aspects up to this academic year.

It's hard to pay all of you for your heartfelt assistance but May the Lord Almighty bless you all abundantly!

## **DEDICATION**

This piece of work is dedicated to all those who have supported me on my journey during its compilation especially my parents who have worked sacrificially and tirelessly to ensure that I attain education. To my brothers and sisters, all my classmates and any other person who prayed for me.

## Table of Contents

ABSTRACT.....	ii
DECLARATION.....	iii
APPROVAL.....	iv
ACKNOWLEDGEMENT.....	v
DEDICATION.....	vi
1.0 CHAPTER ONE.....	1
1.1 INTRODUCTION.....	1
1.2 BACKGROUND:.....	1
1.3 Objectives of the study.....	2
1.3.1 Main objective:.....	2
1.3.2 Specific objectives:.....	2
1.4 Problem statement:.....	2
1.5 Scope of the study:.....	3
1.6 Justification:.....	3
2.0 CHAPTER TWO: LITERATURE REVIEW.....	3
2.1 Definition of keywords.....	3
2.1.1 Shelling:.....	3
2.1.1 Groundnut shelling machine;.....	3
2.2 Classification of Groundnut Sheller Machines:.....	4
2.2.1 Based on the power source:.....	4
2.2.2 Based on shelling mechanism:.....	4
2.2.3 Based on cleaning components:.....	5
2.3 Components of a groundnut sheller and their specifications:.....	5
2.4 Assembly of the machine components:.....	7
2.5 Principle operation of a groundnut shelling machine;.....	8
3.0 CHAPTER THREE: METHODOLOGY.....	9
3.1 Design Consideration:.....	9
3.2 Description of the motorized Sheller:.....	9
3.3 Methodology for specific objective one:.....	10
3.3.1 Determination of size of the hopper:.....	10
3.3.2 Determination of size of the concave:.....	11
3.3.3 Determination of the capacity of shelling chamber:.....	11

3.3.4	Design for Blower components:.....	11
3.3.5	Determination of pulley sizes:.....	14
3.3.6	Determination of belt length: .....	15
3.4	Methodology for specific objective two: .....	16
3.4.1	Determination of power required to shell groundnut pods: .....	16
3.4.2	Determination of power to overcome rotation: .....	16
3.4.3	Determination of power required to drive the blower:.....	17
3.4.4	Determination of power required to drive the shelling drum:.....	17
3.5	Methodology for specific objective three:.....	18
3.5.1	Design of shelling shaft:.....	18
3.5.2	Design of blower shaft: .....	21
3.6	Methodology for specific objective four:.....	23
3.6.1	Selection of bearing for shelling shaft.....	23
3.6.2	Selection of bearing for blower shaft .....	23
4.0	CHAPTER FOUR: CONCLUSION AND RECOMMENDATION.....	24
4.1	CONCLUSION .....	24
4.2	RECOMMENDATION .....	24
	REFERENCES: .....	25
	APPENDICES .....	28
