DEDICATION

I dedicate this report to my beloved parents, my sponsor the sisters of Mary of mount Carmel, my academic supervisor Mr.Wejuli joseph, the community of queen Elizabeth national park in Mweya, my mother-in-law, to my son Jovan destiny and to my classmates of the year 2020/2021.

ACKNOWLEDGEMENT

I thank God the Almighty who granted me the opportunity to train from queen Elizabeth national park and for his continuous protection and comfort and encouragement.

Not forgetting my parents miss Alice Nyanzi and Mr. Vincent Sseguya and the sisters of Mary of mount Carmel who have made it occur by facilitating me financially, morally and spiritually.

Great thanks to the management of UWA and queen in particular for accepting me into this destination and for the guidance throughout my stay in the field.

I would also like to thank Mr. Robert Ntegeka in a special way for all the endeavors.

last but not least, I thank the management of Busitema university for giving students this opportunity to venture the occurrences in their fields of specialization.

Lastly my fellow students for the team work, encouragement and all support rendered to me in the course of the internship. Particularly Kinene Wahab and Odeke Henry.

ABSTRACT

This report contains five chapters and these entails diverse content that is today, chapter one describes the organization of attachment and explains the different areas that falls there in such as queen Elizabeth conservation area. Chapter two highlights the things employed to accomplish the objective and chapter three explain the results the intern yielded from the internship project including a suggestion of areas that seem to require improvements and the way to implement them. Last but not least, chapter four which discuss the internship experience by the intern including the skills learnt followed by conclusions and recommendation in the fifth chapter.

CHAPTER ONE

INTRODUCTION

Introduction

This chapter covers the details of the attachment area and internship description.

1.1 Background to internship program

Tourism and travel management course is a practical course that requires imparting of techniques and skills directly to students in the field where they hope to work. Thus is the reason the university organized the industrial training for bachelor students of tourism and travel management as the curriculum requires.

An internship is a professional learning experience that offers a practical experience related to a student's field of study or career interest. An internship gives a student the opportunity for career exploration and development and to learn new skills. The internship training usually lasts for few months particularly two months for a student of Busitema university with the main purpose of giving students a chance to relate theory to exact field conditions. This is meant to develop their ingenuity and skills to become well trained and groomed professionals as required by the industry. It was done from queen Elizabeth conservation area specifically from Queen Elizabeth National Park in Western Uganda.

i received the internship placement application letters from the university which were introducing me to the organization and I submitted it to the headquarters of Uganda Wildlife Authority along with my personal hand written application letter to the human resource department. Follow up was done and Acceptance letters were received which was submitted to the university administrator after processing an insurance cover statewide insurance company.

1.2 Description of the attachment area

1.2.1 About to UWA

Definition

This is a semi-autonomous government agency that conserves and manages wildlife within and outside protected areas for the people of Uganda and the whole world. This agency was established in 1996 after the merging of Uganda national parks and the game department. It manages 10 national parks and 12 wildlife reserves, 5 community wildlife management areas and 13 wildlife sanctuaries.

Motto

“Conserving for Generations”

Vision

"To be the leading, self-sustaining conservation agency with healthy ecosystems that transforms Uganda into an outstanding ecotourism destination in the World."

Mission

“A Global leader in wildlife conservation ”
