DEDICATION

I dedicate this report to my beloved friends: Kangu Fred, Musiimenta Catherine, Komugisha Ruth for their guidance, advice and words of encouragement towards the success of this dissertation.

Not forgetting the support of International Needs network (I.N) Uganda for their financial support they rendered for my education. The I.N staff especially the International Needs Child Assistance Programme (INCAP) staff have been beside me whenever need arose especially through their endless pieces-of-advice which have kept me on track as far as my academics is concerned
